

PNP OPERATIONAL ACCOMPLISHMENTS

1st Semester 2017

The PNP, in response to the directive of President Rodrigo R Duterte to address the worsening problem of illegal drugs in the country, implemented the Anti-Illegal Drugs Campaign Plan: "Double Barrel" with two approaches: the Project Tokhang and Project High-Value Target (HVT) on July 1, 2016. The relentless operations against illegal drug personalities and dismantling of drug syndicates aim to clear all drug affected barangays in the country. The campaign yielded a considerable number of personalities in illegal drugs in the first three months. However, the President realized the severity of the problem that he deemed the need to extend his self-imposed deadline of three months to six months to solve crime and the illegal drugs problem.

For the police to further improve and strengthen the campaign against illegal drugs, the PNP National Oversight Committee on Anti-Illegal Drugs evaluated and validated the accomplishments of PNP lower units in implementing the campaign plan. The results showed the respective peculiarities and conditions in the areas of operation, as well as the aspects that require further attention.

Considering the findings of the Oversight Committee and the President's six-month extension to rid crime and illegal drugs, the PNP concurrent with its mandate to support the Philippine Drug Enforcement Agency (PDEA) pursuant to Republic Act No. 9165, expanded the Anti-Illegal Drugs Campaign Plan "Double Barrel" to Anti-Illegal Drugs Campaign Plan "Double Barrel" ALPHA. The Anti-Illegal Drugs Campaign Plan "Double Barrel" ALPHA focused more on the accounting of HVT Personalities involved in illegal drugs and progressing towards the Government's ultimate objective of clearing all drug-affected barangays nationwide.

On January 29, 2017, the President directed the PNP to temporarily stop all anti-illegal drug operations following an unfortunate incident that involved some anti-narcotics operatives. Thus, the Chief, PNP dissolved the Anti-Illegal Drugs Group (AIDG), all anti-illegal drug units, from the national, local to the police station level effective January 30, 2017. In the meantime, the PNP will go after rogue policemen and will form a counter-intelligence task force against rogue cops.

During the suspension of the PNP's anti-illegal drugs operations however, a number of local government units and the public reported that illegal drug personalities had resurfaced and continued their illegal drug trade. Crimes, particularly murder, rape, theft and robbery likewise increased during the period. Fearing that the situation may worsen and adversely affect peace and order in communities, local government executives and concerned groups clamored for the return of the anti-illegal drug operations to the PNP.

Hence, the PNP resumed its anti-illegal illegal drug operations in close coordination with the Philippine Drug Enforcement Agency (PDEA), as ordered by the President through "Project Tokhang: Revisited and "Project HVT: Revalidated".

This vigorous, unrelenting and deliberate campaign against illegal drugs focuses on clearing operations of drug affected barangays.

PNP OPERATIONAL ACCOMPLISHMENTS

3rd Quarter 2017

The PNP, in response to the directive of President Rodrigo R Duterte to address the worsening problem of illegal drugs in the country, implemented the Anti-Illegal Drugs Campaign Plan: "Double Barrel" with two approaches: the Project Tokhang and Project High-Value Target (HVT) on July 1, 2016. The relentless operations against illegal drug personalities and dismantling of drug syndicates aim to clear all drug affected barangays in the country. The campaign yielded a considerable number of personalities in illegal drugs in the first three months. However, the President realized the severity of the problem that he deemed the need to extend his self-imposed deadline of three months to six months to solve crime and the illegal drugs problem.

For the police to further improve and strengthen the campaign against illegal drugs, the PNP National Oversight Committee on Anti-Illegal Drugs evaluated and validated the accomplishments of PNP lower units in implementing the campaign plan. The results showed the respective peculiarities and conditions in the areas of operation, as well as the aspects that require further attention.

Considering the findings of the Oversight Committee and the President's six-month extension to rid crime and illegal drugs, the PNP concurrent with its mandate to support the Philippine Drug Enforcement Agency (PDEA) pursuant to Republic Act No. 9165, expanded the Anti-Illegal Drugs Campaign Plan "Double Barrel" to Anti-Illegal Drugs Campaign Plan "Double Barrel" ALPHA. The Anti-Illegal Drugs Campaign Plan "Double Barrel" ALPHA focused more on the accounting of HVT Personalities involved in illegal drugs and progressing towards the Government's ultimate objective of clearing all drug-affected barangays nationwide.

On January 29, 2017, the President directed the PNP to temporarily stop all anti-illegal drug operations following an unfortunate incident that involved some anti-narcotics operatives. Thus, the Chief, PNP dissolved the Anti-Illegal Drugs Group (AIDG), all anti-illegal drug units, from the national, local to the police station level effective January 30, 2017. In the meantime, the PNP will go after rogue policemen and will form a counter-intelligence task force against rogue cops.

During the suspension of the PNP's anti-illegal drugs operations however, a number of local government units and the public reported that illegal drug personalities had resurfaced and continued their illegal drug trade. Crimes, particularly murder, rape, theft and robbery likewise increased during the period. Fearing that the situation may worsen and adversely affect peace and order in communities, local government executives and concerned groups clamored for the return of the anti-illegal drug operations to the PNP.

Hence, the PNP resumed its anti-illegal illegal drug operations in close coordination with the Philippine Drug Enforcement Agency (PDEA), as ordered by the President through “Project Tokhang: Revisited and “Project HVT: Revalidated”. This vigorous, unrelenting and deliberate campaign against illegal drugs focuses on clearing operations of drug affected barangays.
